

1 [The R.M.C. 803 session was called to order at 0902,
2 28 February 2023.]

3 MJ [COL ACOSTA]: The commission is called to order.
4 Government, good morning.

5 TC [MR. O'SULLIVAN]: Good morning, Your Honor. These
6 proceedings are being transmitted via CCTV to public viewing
7 locations in the United States pursuant to the commission's order
8 AE 028M dated 22 November 2019.

9 All of the following personnel have the requisite clearances
10 for being in the courtroom and the Remote Hearing Room:

11 Present for the United States at Guantanamo Bay are myself,
12 Michael O'Sullivan; Mr. John Wells; Major James Garrett; Major
13 Michael Ross; Captain Jonathan Danielczyk; Mr. Pascual Tavaréz-Patin;
14 Staff Sergeant Jaune Daniels; Mr. Forrest Parker Smith; Mr. Louie
15 Marmo; Ms. Joleen Sanders; and our linguist.

16 Present in the Remote Hearing Room in northern Virginia are
17 Lieutenant Commander Keven Schreiber, Major Stephen Romeo, Lieutenant
18 Tess Schwartz, Mr. Edward Ryan, Master Sergeant Laura Speranza, Staff
19 Sergeant Kyle Swayzee, Ms. Paige McLachlan. Also present,
20 Special Agent Paul Rude with the Transregional Criminal Investigation
21 Unit; and from the FBI, Supervisory Special Agent Mary Sonnen.
22 Ms. Karissa Grippando may be joining us at some point during the day.

23 MJ [COL ACOSTA]: All right. Thank you, Counsel.

1 Good morning, Defense. Who's here on behalf of the defense?

2 LDC [MR. NATALE]: Good morning, Your Honor. Anthony Natale
3 on behalf of Mr. Nashiri, who is present in court with the aid of his
4 interpreter. Also present here in the ELC is Lieutenant Colonel
5 Nettinga, Ms. Morgan, Staff Sergeant McGuire, LN1 Wood,
6 Mr. Bendernagel. And Mr. Dolphin may be coming in.

7 I have a correction. Staff Sergeant McGuire may be coming
8 in and out. She's not presently here now.

9 And as far as the RHR, Lieutenant Commander Piette,
10 Mr. Padilla, Ms. Carmon, Mr. Roy. And the following individuals will
11 probably be coming in and out as we need them to be: Mr. Hoffmann,
12 Ms. Pinate, and Mr. Lange.

13 All of the people I have listed at both locations have the
14 necessary clearances and qualifications to be present.

15 MJ [COL ACOSTA]: Thank you, Counsel.

16 As defense stated, and just to be clear, the accused is here
17 today.

18 Yesterday, following a closed session, the commission held a
19 brief 802 session with the parties. We discussed generally the plan
20 for today to take up AE 534. We discussed that Agent McFadden is not
21 anticipated as a witness again, at least right now. And we discussed
22 the submission for written argument on 319, and the commission told
23 the parties that it -- that the commission wanted to -- will issue an

1 order outlining the parameters of that argument, that written
2 argument, much in the way that the commission did for AE 399. We
3 also briefly discussed the defense concerns about their ability to
4 argue 444 this week.

5 Regarding taking up AE 534 today, the government asked the
6 commission not to order the production of the interpreter citing JTF
7 concerns that the government stated that they did not -- that the
8 government did not fully understand the JTF concerns regarding the
9 production of that witness. Further, the government indicated that
10 the testimony of the SMO, the senior medical officer, may negate to
11 hear from the -- from the interpreter, and the government further
12 indicated that the affidavit submitted by the SMO, the medical
13 provider, provided on this issue may be incomplete in some way.

14 The commission had previously informed the government to
15 have the SMO here now. As the commission understands the way things
16 are now for the testimony of the SMO, a portion of that testimony may
17 be -- need to be taken up in closed session. If so, we'll order a
18 closure and potential -- and before we do that, I'll try to take up
19 as many things as I can before that, but we might very well take up
20 in open session after that, and the commission will inform the
21 parties if that is the case.

22 With regard to AE 027X, this is the order of the commission:

23 The pleadings, as they are submitted, indicate that there is

1 at least -- that there is a high potential -- and the arguments of
2 counsel indicate there is a high likelihood that the parties are at
3 least in some form of agreement, that there needs to be a
4 modification with that.

5 And that in light of the need to resolve the raised issue as
6 quickly as possible, the commission directs and orders the parties to
7 confer and submit a joint file -- filing containing proposed
8 modifications on the areas in which they can agree and outlining
9 those areas in which there is disagreement to modifications of the
10 privilege written communications order not later than COB, close of
11 business, on 3 March.

12 Regarding AE 319 and my intent to issue the written order on
13 how to -- my order -- the order outlining how you're going to outline
14 your written argument on that, parties, are we done with the lay
15 witnesses and the presentation of evidence on the admissibility of
16 the lay witness statements at the end of this session this week?

17 Government?

18 ATC [LCDR SCHREIBER]: Yes, Your Honor. Assuming that Ken
19 Hieb arrives and testifies, then yes, we should be done with the lay
20 witness presentation of evidence.

21 MJ [COL ACOSTA]: Defense?

22 LDC [MR. NATALE]: Yes, Your Honor.

23 MJ [COL ACOSTA]: All right. All right. Now we -- as the

UNCLASSIFIED//FOR PUBLIC RELEASE
UNOFFICIAL/UNAUTHENTICATED TRANSCRIPT

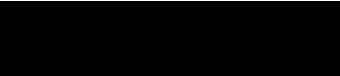

1 commission ordered the SMO to be present for the defense, as the
2 defense requested as their witness, defense, you may call your
3 witness.

4 DDC [LCDR PIETTE]: Yes, Your Honor. The defense calls the
5 senior medical officer.

6 ATC [Capt DANIELCZYK]: Good morning, sir. If you could
7 please stand next to the witness stand and raise your right hand.

8 **SENIOR MEDICAL OFFICER, U.S. Navy, was called as a witness for the**
9 **defense, was sworn, and testified as follows:**

10 ATC [Capt DANIELCZYK]: And can you please state your rank and
11 current duty assignment for the record.

12 WIT: Sure. I'm a commander, and I'm the senior
13 medical officer for Camp V 

14 DDC [LT DANIELSON]: Thank you.

15 DDC [LCDR PIETTE]: I don't yet have an image of the witness
16 down here. Okay. There we go.

17 **DIRECT EXAMINATION**

18 **Questions by the Detailed Defense Counsel [LCDR PIETTE]:**

19 Q. Good morning, sir.

20 A. Good morning.

21 Q. Good to talk to you again. Were you able to receive the
22 documents that I sent over to the prosecution this morning for your
23 review?

1 A. I did.

2 Q. Did you have a chance to look over them?

3 A. Briefly, yes.

4 Q. Okay. We might be talking about them later. I'm not
5 sure.

6 A. Okay.

7 Q. All right. Just briefly, if you could tell the court,
8 what is your profession?

9 A. I am a physician, and I am an M.D. flavor of physician.
10 And would you like me to tell you my specialties and so forth?

11 Q. Yes, please. That would be perfect.

12 A. Sure. I am a board-certified critical care physician,
13 pulmonologist, and internal medicine physician.

14 Q. And how long have you been a medical doctor?

15 A. I graduated from medical school in 2004.

16 Q. Okay. And have you been a naval officer the entire time
17 you've been a medical doctor?

18 A. Of sorts, yes. I was on active duty for a period of time
19 and then got out to pursue a civilian career. And during that period
20 of time I was in the reserves, and then I rejoined active duty after
21 that period of time in 2018.

22 MJ [COL ACOSTA]: Counsel, can you hold on one second.

23 DDC [LCDR PIETTE]: Yes, Your Honor.

1 MJ [COL ACOSTA]: Is there an issue, Defense, with the
2 presentation or are you able to see ----

3 LDC [MR. NATALE]: No, Your Honor, no.

4 MJ [COL ACOSTA]: I was just trying to make sure you can see
5 and hear.

6 LDC [MR. NATALE]: Everything is fine, Your Honor.

7 MJ [COL ACOSTA]: Okay. You may proceed.

8 DDC [LCDR PIETTE]: Thank you.

9 Q. And what is your current duty station?

10 A. I am active duty, as I previously mentioned, and I am
11 deployed here to this assignment from Naval Hospital [REDACTED] and ----

12 Q. How long ----

13 A. ---- my duty assignment there is as a critical care and
14 pulmonary physician.

15 Q. And how long have you been detailed here as the senior
16 medical officer?

17 A. Approximately [REDACTED]

18 Q. And about how much longer do you have on this tour?

19 A. A little less [REDACTED]

20 Q. Thank you. All right. Now let's get into -- we're going
21 to talk a little bit about the training that you have specific to
22 this job.

23 What, if any, training have you had regarding the care and

1 treatment of torture victims?

2 A. There has been no specific treatment to torture victims.

3 Q. How about your medical staff? As far as you know, have
4 they had any training in the care and treatment of torture survivors?

5 A. Not specifically to that, to the best of my understanding.
6 We have a psychiatrist who is board certified and she is also an M.D.
7 and I think that it's reasonable to assume that she has a fundamental
8 basic amount of training in taking care of and treating -- assessing
9 and treating patients who have been exposed to difficult situations.

10 But beyond that, I don't think there's been anything
11 specific to torture victims. It's just not something that in regular
12 graduate medical education you can go and get a residency or a
13 fellowship in torture medicine. I'm not sure you could find that in
14 the yellow pages.

15 Q. And to be clear, when you're talking about the
16 psychiatrist there, you said it's safe to assume, but do you know for
17 sure, like do you know if she has had special -- or he -- has had
18 specialized training on the treatment of torture victims?

19 A. Well, as I've stated, I don't think that she has. But
20 I -- but just as a physician who's been practicing medicine for a
21 number of years who consults various specialists -- for instance, if
22 I consult an orthopedic surgeon, I'm assuming that they know how to
23 fix a broken arm.

1 Likewise, if I consult a psychiatrist, I would assume that
2 they would know how to speak to a patient about difficult problems
3 which may include traumatic situations and anxiety and things of that
4 nature. So insofar as those medical conditions may be related to
5 torture, I would assume that there would be some level of experience
6 and expertise there, yes.

7 Q. And on that note -- we might pick this up in more detail
8 later, but when you -- in your job now you deal with patients who
9 have suffered from trauma from torture. Is that something that you
10 have sought assistance with, talked to other medical doctors who
11 maybe have a specialty or have a lot of experience or maybe would
12 refer -- I don't think you can refer these people, but if you could,
13 would you refer them to somebody who had a medical specialty or at
14 least experience in treating torture victims?

15 A. No, I don't see that as being part of my mission, to be
16 honest with you. You know, I'm deployed here in the capacity of a
17 primary care physician because I happen to have an internal medicine
18 board certification, even though it's not my primary practice. As
19 such, I feel very comfortable operating in that capacity to provide
20 primary care to the patients.

21 And any care along the lines that you're alluding to or
22 asking me about, I would -- I would assume would be more
23 appropriately consulted out from our psychiatrist rather than from

1 me. Doesn't mean that I wouldn't know about it or help facilitate it
2 with the use of our logistics team, but it's not something that I
3 would specifically do because the JTF medical mission isn't one of
4 investigation or forensics or factfinding or anything along those
5 lines. It's one of providing safe, legal, and humane primary care to
6 the best of our ability to the detainees.

7 Q. Okay. Thank you. All right.

8 Moving on to this -- were you -- we're going to move on to
9 your knowledge, like what you did to prepare for coming here, beyond
10 training in any specific area. But first, were you -- did you
11 volunteer for this position or were you voluntold?

12 A. I was voluntold to come here because I had a security
13 clearance that allowed me to come here.

14 Q. All right. And with that security clearance, did
15 you -- [REDACTED]

16 A. Yes.

17 Q. [REDACTED] at any time prior to coming here,
18 as you were coming here, were you given specifics about what happened
19 to the detainees in their prior CIA custody?

20 A. I was not given any information prior to coming here
21 because I was not read on until I arrived.

22 Q. Okay.

23 A. The further follow-on answer to your question is, I was

1 not given any specifics. I was given general information about their
2 prior experiences before they were transferred here.

3 Q. And if you recall, how general was that? Like, what were
4 you told?

5 A. I feel like ----

6 TC [MR. O'SULLIVAN]: Your Honor ----

7 A. ---- you just asked me a question about what I was told
8 during a read-on ----

9 TC [MR. O'SULLIVAN]: Excuse me, Your Honor.

10 MJ [COL ACOSTA]: Hold on. Hold on.

11 WIT: Sure.

12 TC [MR. O'SULLIVAN]: I'm sorry, Your Honor. I just want to
13 make sure that the witness knows that if he feels like he needs to go
14 into classified, he should not say it in open court.

15 MJ [COL ACOSTA]: Right. What government counsel is
16 indicating is that if you think that your answer is going to be
17 classified, say "I believe that's a classified answer" and that you
18 need to -- and that you cannot answer it in open court.

19 WIT: Yes, Your Honor.

20 MJ [COL ACOSTA]: Can you do that?

21 WIT: Yes.

22 MJ [COL ACOSTA]: All right. Let's -- re-ask your question,
23 Defense Counsel, and then we'll get the answer.

1 Q. Okay. How general was what you were told and, more
2 specifically, if you could tell us just what you were told about
3 their prior treatment in CIA custody.

4 A. Specific during [REDACTED]

5 Q. Yes, or during your turnover, as you were coming here.

6 A. I can speak to the turnover when I was coming here, and
7 that is that all of the detainees who are my patients experienced CIA
8 enhanced interrogation, which has been characterized by many as
9 torture.

10 Q. But you didn't get any specifics on that at that time,
11 during your turnover?

12 A. That's correct.

13 Q. Okay. And prior to coming here at any time, had you ever
14 heard of the SSCI Report, otherwise known as the Torture Report,
15 about what had happened to some of these detainees in CIA custody?

16 A. I had not.

17 Q. Had you ever heard of or read the 2007 ICRC, Red Cross,
18 report about what happened to some of these detainees?

19 A. I read some of that reporting in my orientation coming
20 here but not previous to it, no.

21 Q. Okay. And that didn't -- you didn't -- don't remember
22 reading any specifics about what happened to the detainees?

23 A. I don't. I don't remember any specifics during that time.

1 Q. And with respect to Mr. Al Nashiri, when in -- when -- I'm
2 asking for a time frame here -- did you start learning specifics
3 about what happened to him in prior custody?

4 A. I began to read some open-source information and learn a
5 little bit more from prior testimony that was forwarded to me when I
6 was notified that I may be asked to come testify for this case.

7 Q. And what open-source information was that?

8 A. Media articles, testimony from some of your experts, and
9 testimony from -- from -- given by prior senior medical officers.

10 Q. Did you listen to -- or read, excuse me, testimony from
11 Dr. Crosby?

12 A. I only reviewed briefly a *New York Times* article by
13 Dr. Crosby yesterday because it was forwarded to me.

14 Q. Okay.

15 A. But I did not memorize it.

16 Q. And why did you start -- I think you might have answered
17 this, but why did you start reviewing this open-source material?

18 A. I did that because I was -- I was notified that the nature
19 of the motion that you had filed, or your team had filed, had
20 pertinence to allegations of prior treatment.

21 Q. And when you were reviewing that open-source material, did
22 you come to learn that Mr. Al Nashiri had been hung -- shackled by
23 his wrists and hung from the ceiling for extended periods of time,

1 even days on end, while in CIA custody?

2 A. I can't speak to the details, but yes, I do remember
3 reading that.

4 Q. Okay. Did you also remember reading that Mr. Al Nashiri
5 was shoved into a small box that he could barely fit into, again, for
6 days at a time?

7 A. Yes, I remember that too.

8 Q. Do you remember reading that he was subjected to extreme
9 cold temperatures for extended periods of time as well?

10 A. I don't remember that piece.

11 Q. And do you remember reading about him getting walled? In
12 other words, them wrapping a towel around his neck and slamming his
13 head into a wall multiple times over the course of his time in CIA
14 custody?

15 A. No, I don't remember hearing about that with him
16 specifically. But over the course of my several months, I have heard
17 about such a technique regarding that generically existing.

18 Q. All right. And at any time, did you see any mention of
19 those techniques or any others in Mr. Al Nashiri's medical record?

20 A. No. I don't remember seeing anything like that.

21 Q. And have you reviewed Mr. Al Nashiri's medical records?

22 A. Yes, I have.

23 Q. How far back do his medical records go, if you can recall?

1 A. The medical records that we have available to us go back
2 to 2006. And I can't say that I was able to memorize all of those
3 medical records, but I did review every page in the medical record as
4 best as I could read them, all the way back to his intake.

5 Q. And at no point in those records, going all the way back
6 to 2006, do you see any sort of -- did you see any sort of trauma
7 history or detailed accounting of the injuries that he had received
8 in CIA custody and how those might be of -- affecting his current
9 injuries?

10 A. If there were, I missed them. It's a lot of data.

11 Q. Understood. That is true.

12 You mentioned before your turnover. So we're talking about
13 when you arrived, you had a turnover with the prior SMO. How long
14 was that turnover?

15 A. I believe it was about ten days. It may have been a
16 little bit longer, but I was delayed a little bit because of our
17 teams having some COVID-positive issues, and so we were all kind of
18 in ROM. So I got a -- I got there a few days late. So I arrived
19 over the weekend and we essentially got off the plane, got some
20 lunch, and went into the office and got to work.

21 Q. And what did that turnover consist of?

22 A. It consisted of a lot of -- a lot of education and
23 orientation regarding process and who's who in the zoo in terms of

1 JTF staff, where to get things done, where to get answers, where to
2 get support.

3 It involved sort of drinking from the firehose, if you'll
4 accept that expression, in terms of, you know, just the -- just how
5 things were done in terms of getting folks medical care, getting
6 specialists on the island, getting people the care they need and the
7 primary issues that exist for each detainee. Everybody has a couple
8 of things that are active issues. And trying to learn those, trying
9 to learn faces, trying to learn ISN numbers, trying to learn names,
10 trying to learn all of those things and how they -- how they marry up
11 together.

12 So it's a lot to take in over the course of ten days. And
13 to be honest with you, you get a -- you get a flash sight picture; I
14 know you know what that means -- and then you start to learn over the
15 course of months and get into each person's medical history a little
16 bit more.

17 Q. And during that turnover, did you and the prior or the
18 outgoing SMO have a chance to sit down with Mr. Al Nashiri?

19 A. Yes, we did.

20 Q. About how many detainees agreed to sit down with you and
21 the outgoing SMO?

22 A. To my recollection, probably -- probably 13.

23 Q. Okay. And was Mr. Al Nashiri cooperative and willing to

UNCLASSIFIED//FOR PUBLIC RELEASE
UNOFFICIAL/UNAUTHENTICATED TRANSCRIPT

1 talk to you in that meeting?

2 A. Oh, yes, as he always is. He's very pleasant and fun to
3 talk to and, frankly, very entertaining.

4 Q. And how long -- I guess we could figure this out by doing
5 the math, but how long have you known and interacted with
6 Mr. Al Nashiri?

7 A. You know, to be frank with you, my official clinical
8 interactions with him haven't been as many as some of the other
9 detainees, primarily because we have him seen by physical therapy
10 more than anyone else. And the issues that he's presented to me for
11 have been issues that I think we've been able to get around and get a
12 handle on, which I've felt good about.

13 And he also tends to be someone who kind of -- kind of puts
14 on kind of a tough-guy -- a tough-guy shield and says, no, no, I'm
15 good, I'm good, I got it, I'm okay. I think things are good, you
16 know. So we'll take him -- take him at his word and do what we can.

17 Some of my other interactions have been glancing
18 interactions. I think that it would help to understand kind of
19 the -- the way we -- the way our workflow kind of comes out of left
20 field sometimes.

21 [REDACTED]
22 [REDACTED]
23 [REDACTED] And most of the patients don't want to be seen

UNCLASSIFIED//FOR PUBLIC RELEASE
UNOFFICIAL/UNAUTHENTICATED TRANSCRIPT

1 in the clinical space; most of them just want to ask me a question or
2 sidebar. And sometimes I'll be up at the -- the sally gate speaking
3 to someone and then, you know, four or five more people may come up
4 and say, oh, by the way, can I ask you about this or can I ask you
5 about that? And so some of my interactions have been along those
6 lines.

7 You know, usually he's trying to ask me how much protein
8 powder and BCAAs he can take so he can get swole. So he likes to
9 work out. And that's been a lot of the interactions I've had with
10 him.

11 Q. Understood. And other than protein powder, getting huge,
12 what else do you guys talk about?

13 A. We talked recently about getting him an ENT appointment
14 [REDACTED] so we got that taken care of for
15 him. [REDACTED]

16 [REDACTED] He's got, as you know, chronic issues with motion
17 sickness, so, you know -- and these are, you know -- these are pretty
18 easy to deal with.

19 Some of it's just med refills that come through the -- come
20 through the nursing staff. They tell me that they talked with him
21 and he wants to -- wants a refill of this medication or that
22 medication, and we just sort of handle it. It's sort of routine.

23 Q. Okay. And about how many times a week would you say that

1 you speak to him either in those -- kind of in passing or in actual
2 appointments?

3 A. Not that frequently, to be honest with you.

4 Q. Would you say that over the eight months you've talked to
5 him, you've been able to develop some kind of rapport with him?

6 A. I think so.

7 Q. I remember yesterday you mentioned that he treats you as
8 his -- like his personal trainer. Is that true?

9 A. I think that's fair.

10 Q. And how so, if you could briefly describe.

11 A. I remember -- you know, besides the -- besides the
12 interaction I described, he's asked about -- we have these -- I think
13 some of your -- maybe some of your team provides him with some of
14 these protein powders or supplement -- amino acid supplements and so
15 forth, and so we sign these things off.

16 And so I remember one interaction where we were signing
17 these things off, and he -- the linguist asked if he could ask me
18 some -- a couple of questions about it while I was signing him off.
19 And that cascaded into him asking about his form and how he should do
20 his bicep curls and, you know, how much he should rest and, you know,
21 what's the best time to take these supplements for him to get maximum
22 muscle gains and so forth. And so it -- it comes off to me as being
23 just kind of friendly interaction.

UNCLASSIFIED//FOR PUBLIC RELEASE
UNOFFICIAL/UNAUTHENTICATED TRANSCRIPT

1 Q. And just so we have a better picture of these friendly
2 interactions you have with Mr. Al Nashiri, do you speak Arabic?

3 A. I don't. I know a couple of -- a couple of words for
4 etiquette.

5 Q. And when you speak to Mr. Al Nashiri, does he speak
6 English?

7 A. He doesn't speak English fluently. He does speak a
8 few -- a few phrases. And my impression, being someone that does
9 speak other languages, is that I can tell that he can understand a
10 lot of what I say, but he has issues just kind of expressing himself
11 and putting sentence structure together, which is why we rely
12 exclusively on the linguist.

13 Q. Okay. And so in every interaction you have with him is
14 the linguist present?

15 A. I don't know if we had the linguist present when I was
16 trying to get him an ENT appointment [REDACTED]

17 [REDACTED] And -- but the
18 linguist may have been present. I just don't remember.

19 But we had a lot of hand-waving and things that went on when
20 he was describing his worsening issues [REDACTED] and
21 I asked him if he wanted to see the nose doctor, and I think that
22 was -- you know, I think that may have been without the linguist, but
23 that was probably the only interaction we had. And that's because I

1 wanted to make sure I got him an appointment because the guy who was
2 the provider for the ENT specialty was basically going to be inbound.

3 Q. We spoke about this yesterday, but do you remember your
4 August of -- I believe it was 17 August 2022 meeting with
5 Mr. Al Nashiri where you spoke to him about his x-ray on his shoulder
6 that he had had?

7 A. I remember the interaction.

8 Q. Was an interpreter present for that?

9 A. Yes, he was.

10 Q. Okay. And do you remember, did Mr. Al Nashiri tell you
11 anything about the origins or suspected origins of his shoulder
12 injury?

13 A. I know that's the -- the main focus and topic of your
14 motion, regarding that encounter. And we've talked about it and
15 thought about it, and I don't recall that coming up.

16 As I've spoken -- as I said to you yesterday, I'm not
17 asserting that a hundred percent certainty it did not come up and I'm
18 telling you beyond a shadow of a doubt, because August was a minute
19 ago. But I don't remember anything like that coming up.

20 Q. And again, just to be clear, with the interpreter, does
21 the interpreter -- do you know if what the interpreter tells you is a
22 verbatim -- is verbatim as to what the detainee or Mr. Al Nashiri's
23 telling you or if you're getting a gist?

1 A. It would be completely speculative of me to try to answer
2 that question.

3 Q. Understood. So it's only the interpreter could answer
4 that question?

5 A. Right.

6 DDC [LCDR PIETTE]: If I could have the court's indulgence
7 briefly, Your Honor.

8 MJ [COL ACOSTA]: You may.

9 **[Counsel conferred.]**

10 Q. All right. And we were just talking about that August of
11 2022 meeting. You ended up writing an affidavit about that ----

12 A. Correct.

13 Q. ---- meeting? Okay.

14 Did you draft that or did somebody else draft that for you?

15 A. I drafted it with the assistance of our LSS team and
16 essentially dictated a large amount of verbiage that basically came
17 from my recollection of events and I reviewed it after it was put in
18 the proper, you know, format and agreed with it and signed it.

19 Q. Okay. Do you know a -- somebody who was the former chief
20 medical officer here, Dr. Corry Kucik, I think is how you say his
21 last name?

22 A. I know who he is, and I've -- I may have met him once.
23 He's in my -- he's in my specialty field. He's an anesthesia

1 critical care physician. I'm a pulmonary critical care physician,
2 but we sort of live in sort of the same Venn diagram community, and
3 so I know who he is. I'm familiar that he's, you know, testified and
4 so forth to various cases.

5 Q. And you've never published an article with him?

6 A. Not to my knowledge.

7 Q. Thank you.

8 A. Not unless me added me kindly as a sixth or seventh author
9 and I need to put it on my CV.

10 Q. Understood.

11 I'm going to go back here to -- I'm going to dig a little
12 bit deeper into the medical health professional, the psychiatrist.
13 Do you supervise the psychiatrist?

14 A. I supervise her on paper, and I'm technically her clinical
15 supervisor, but I don't read all of her work and critique her work.
16 Her peer review is done by her fellow behavioral health staff
17 colleagues.

18 Q. All right. And so then setting aside any speculation or,
19 you know, what we would assume that a psychiatrist would have, what
20 do you know about her specific qualifications?

21 A. I know she's a board-certified psychiatrist.

22 Q. Thank you. And so if we were to want to talk to her about
23 her specific qualifications or if we were to want to know those, we

1 would have to talk to her directly; is that ----

2 A. That would be correct. Yeah.

3 Q. ---- accurate? Thank you.

4 Back to your turnover, your in-briefings. Was the word
5 "torture" used when you were told generally about what happened to
6 the detainees?

7 A. I heard it used. I can't say what context it was used in.

8 Q. And earlier, you spoke about -- we were talking about what
9 you did to -- once you heard about this motion and were preparing for
10 it, reviewing open-source documents. Who forwarded you the article
11 by Dr. Crosby?

12 A. I was made aware that it existed by our chief medical
13 officer but because I don't subscribe to the *New York Times*, I
14 directly asked the LSS department to find someone who had a
15 subscription and print it off for me so I could review it.

16 Q. Understood. And other than the *New York Times*, if you can
17 remember specifically, what other open-source materials did you
18 review?

19 A. I did glance through the primary findings of the SSCI but
20 not specific to him, obviously, and then I reviewed prior testimony.
21 So I guess when I said plural open-source information, I was alluding
22 to the *New York Times* document and then the second one would probably
23 be the SSCI.

1 Q. And did you review them for any other purpose than
2 addressing this testimony or this hearing?

3 A. No.

4 DDC [LCDR PIETTE]: At this time, Your Honor, we have nothing
5 further. We may, after consulting with my -- the rest of the folks
6 on my team, have a question or two in a closed session, but I
7 will ----

8 MJ [COL ACOSTA]: Talk to your team.

9 DDC [LCDR PIETTE]: ---- confirm that after -- after the
10 redirect.

11 MJ [COL ACOSTA]: Okay.

12 DDC [LCDR PIETTE]: Thank you.

13 MJ [COL ACOSTA]: Government, cross?

14 ATC [Capt DANIELCZYK]: Thank you, Your Honor.

15 **CROSS-EXAMINATION**

16 **Questions by the Assistant Trial Counsel [Capt DANIELCZYK]:**

17 Q. All right. Good morning again, sir.

18 A. Good morning.

19 Q. So I want to start just very broadly, just to make sure
20 that we have it. As the senior medical officer, what is your role at
21 the detention facility?

22 A. My role is one that is the chief clinician who oversees
23 all medical care performed for the detainees by both other

1 physicians, nursing staff, and corpsmen. My role is one that is of a
2 dyad nature, wherein an officer in charge handles staffing and other
3 personnel-type issues and ensuring the processes are followed insofar
4 as medication administration and things of that nature.

5 Q. Are you involved in detainee operations on the detention
6 facility side in any way?

7 A. How do you mean?

8 Q. Taking medical services out of it ----

9 A. Uh-huh.

10 Q. ---- other sorts of operations pertaining to the
11 detainees, are you involved in that?

12 A. I'm only involved in detainee operations insofar as I may
13 be asked for my advice about comfort items, dietary accommodations,
14 and things of that nature, things that may cross over into a realm
15 that would require some medical knowledge for me to give some advice
16 to command staff.

17 Q. Understood.

18 In your opinion, are you accessible to the detainees?

19 A. Yes.

20 Q. And approximately how frequently do you interact with
21 them?

22 A. I'll interact with them as -- as frequently as they -- as
23 they need. I'm -- I generally tell individuals during our tours that

1 the detainees have quicker access to a physician than you and I do
2 because they can generally see me within 24 to 48 hours if they need
3 to. And if they need to see me emergently, I'll be there within 30
4 minutes.

5 Q. Now, you talked a little bit about turnover that you had
6 with the outgoing senior medical officer and you talked a little bit
7 about what that looked like.

8 With the review of medical records, did that include the
9 behavioral health records as well?

10 A. No, it didn't.

11 Q. In your review in preparation for testimony today, did you
12 review all of the psychological records?

13 A. No, I didn't. I only reviewed the medical records and the
14 physical therapy records. I probably would still be there now if I
15 tried to do that.

16 Q. Now, you mentioned on direct about the SSCI Report.

17 A. Uh-huh.

18 Q. In your clinical opinion, you're here to provide medical
19 care, correct?

20 A. Correct.

21 Q. Did you find that necessary for you to provide the
22 appropriate care to the detainees?

23 A. No.

1 Q. Why not?

2 A. Primarily because of the passage of time. It's not
3 completely implausible that there may be continued physical
4 manifestations from pre-2006 that could be relevant today, and
5 frankly, some of them are with some of the detainees. But we handle
6 those on a case-by-case basis. And essentially at this point in
7 time, we handle those issues insofar as they present to us
8 clinically. The nature and the context and the mechanism of those
9 situations are irrelevant to me at this point in time.

10 Q. Now, speaking about Mr. Al Nashiri in particular, have you
11 seen anything in the clinical presentations that would
12 suggest -- what you were just alluding to would suggest that that
13 past trauma is relevant to your diagnosis and treatment?

14 A. No, nothing at all.

15 Q. Now, is there any policy that prohibits you from asking
16 about previous trauma experienced in U.S. custody?

17 A. No. If there is one, I'm not aware of it.

18 Q. Is there any policy that prohibits you from including
19 detainee claims of previous trauma in custody?

20 A. No.

21 Q. Have you ever been told not to include anything in the
22 medical records?

23 A. No.

1 Q. Have you ever instructed anybody at the medical facility
2 not to include anything in the medical records?

3 A. No.

4 Q. Have you ever purposefully left something out of
5 Mr. Al Nashiri's medical records?

6 A. No.

7 Q. Now, are you familiar with the SOAP method, the S-O-A-P
8 method of notation?

9 A. Yes.

10 Q. Can you explain that for us, please.

11 A. We generally refer to it as a SOAP note, and SOAP stands
12 for Subjective, Objective, Assessment, Plan. And the SOAP note is
13 the canonical dogma of medical documentation during a medical
14 interaction with a patient, between a physician and a patient, or any
15 medical provider and a patient. And that is universally accepted as
16 the way, specific to outpatient medicine, specific to how we document
17 patient care.

18 Q. So am I correct in saying that whether it's outpatient,
19 you know, in the civilian world or in the military, that's the method
20 used?

21 A. Yes. I think that the thing about medicine in the
22 military is that to the best of our ability, except for the flavor
23 of, you know, military readiness and things of that nature and

1 deployment readiness and everything, medicine is practiced in the
2 civilian sector -- in military sector just as it is in the civilian
3 sector.

4 Q. And just to put a fine point on this, talking about the
5 SOAP note method, is that your practice here in the detention center?

6 A. Yes.

7 Q. You talked a little bit about active issues. Is it fair
8 to say that that's your focus when you're providing treatment to the
9 detainees?

10 A. It's my focus anytime I'm taking care of anyone.
11 Specifically, because as we live our lives longer and longer, we've
12 been through -- we've been through things that we've recovered from
13 and we've -- we have no other -- no ongoing relevance with.

14 I mean, for instance, if you broke your ankle and you had
15 surgery in 2001, I'm unlikely to spend time asking you about how your
16 ankle is doing if since 2001 you haven't come to me and asked about
17 your ankle one time, or asked any other medical provider. I won't
18 bring it up.

19 Q. In talking about that, sir, you mentioned what's relevant.
20 How do you make that determination in your practice?

21 A. Recent history, for one thing, and furthermore what I
22 glean from a medical interview with the patient. I'll interview a
23 patient, and I'll ask specific questions that provide answers that

1 I'm looking for answers to. I'm not sure if I said that correctly,
2 but what I mean is I'll interview a patient specific to things that I
3 need to answer in order to arrive at a diagnosis for a patient.

4 So if somebody presents to me with chest pain, for instance,
5 I'll ask them to tell me if the chest pain started at any particular
6 point in their chest. I'll ask them did it radiate anywhere. I'll
7 ask them did it seem to go to your back. I'll ask them if it seems
8 to be made worse by certain types of activity or if it's present just
9 as much at rest as it is with activity. Or I'll ask them if it's
10 worse when they lean forward versus when they lie back.

11 And every one of those things that I just said to you
12 carries with it an if-then and leading to a more likelihood -- higher
13 likelihood of another diagnosis as a cause for the chest pain versus
14 another.

15 Q. So in your interactions specifically with Mr. Al Nashiri,
16 I think you said that he was, you know, maybe paraphrasing, but a
17 pleasure to be around; is that ----

18 A. Sure.

19 Q. ---- a fair assessment?

20 A. Sure. I love interacting with him.

21 Q. And has he ever appeared apprehensive in any way around
22 you?

23 A. No, not at all.

1 Q. Did you ever get the sense that he was afraid to talk to
2 you about any topic?

3 A. Oh, no. He's -- he's very happy to converse and have
4 conversations.

5 Q. Have you discussed his injuries with him?

6 A. I have.

7 Q. And did that include a treatment plan?

8 A. It did. His -- specifically regarding his musculoskeletal
9 issues, he hasn't really -- he hasn't really had that many issues
10 with his knees and with his back and with his hands as much as he has
11 in the past.

12 Since 2006, the preponderance of his musculoskeletal
13 complaints were around his knees, lower back, upper back, hands,
14 things of that nature. But more recently, as of about 2021, he
15 started to present to the previous senior medical officers, I think
16 maybe two ago, and to our physical therapists with the shoulder
17 injuries, which have all been enveloped in this idea that he loves to
18 work out, loves to lift weights, loves to do pull-ups, loves to do
19 bicep curls specifically with 70-pound sandbags.

20 And, you know, he's -- he's actually a fairly short guy.
21 Most people his size don't do 70-pound curls. And so the -- the
22 medical advice from the orthopedic surgeon and from the senior
23 medical officers, one of whom is a sports medicine specialist, and

1 the physical therapist, has been that he's lifting too much weight
2 and injuring -- not developing his muscles but he's actually injuring
3 the tendons going up into his shoulder. And so that's why the biceps
4 tendon constitutes his shoulder injury, because it wraps up into the
5 shoulder joint.

6 And so the focus on his shoulder injury, both in 2015 when
7 he first actually presented for it, when he actually said I think
8 this is from lifting weights, and when he presented in 2021, has been
9 completely focused on his training, his overuse, and what mitigation
10 strategies we could help him implement so that he could heal from
11 these things and not make it worse and develop, you know, worsening
12 chronicity of injury. And so that's been the thrust of it ever since
13 2021.

14 When I saw him in August, the encounter was essentially just
15 yet another follow-up for the same type of injury that he had been
16 nursing previous to my arrival.

17 Q. Now, you brought up that August meeting, and I know
18 defense counsel asked you a question on this, but I just want to
19 confirm.

20 In that -- you submitted a declaration, correct?

21 A. Correct.

22 Q. Now, in that declaration, you said that you couldn't
23 recall if Mr. Al Nashiri attributed that shoulder pain to previous

1 trauma; is that correct?

2 A. That's correct.

3 Q. Now, you said there's -- you can't say with a
4 hundred percent certainty, so is there a possibility that he did
5 attribute that?

6 A. Because I'm sensitive to just the fact that we're living
7 in a universe where we don't have a hundred percent recall of
8 everything, I have to say -- we're in a courtroom, I have to say,
9 yes, there is a possibility that he said something that I don't
10 remember.

11 Q. If he had said that, would that have impacted your care
12 and treatment of him in any way?

13 A. I don't know that it would have because the mechanism of
14 injury and the history of repeated injury and exposure of -- based on
15 his voluntary activity is so compelling that it's difficult to
16 imagine that any injury or any -- anything that occurred to his
17 joints pre-2006 in any way, shape, or form have something to do with
18 his hurting his biceps tendon from 70-pound sandbag curls. It just
19 doesn't make clinical sense. It's just not consistent with reality.

20 Q. Did you intentionally not include a claim of previous
21 trauma so that it would not appear in the medical records?

22 A. No.

23 Q. And have you ever not included a claim of previous trauma

1 so that it did not appear in the medical records?

2 A. No.

3 Q. Now, you said you reviewed Mr. Al Nashiri's medical
4 records; is that correct?

5 A. That's correct.

6 Q. And we've talked about the ongoing shoulder injury.

7 A. Uh-huh.

8 ATC [Capt DANIELCZYK]: Your Honor, I'd like to show the
9 witness a document, and it has been premarked as AE 534K.

10 MJ [COL ACOSTA]: Defense, do you have a copy?

11 ATC [Capt DANIELCZYK]: I believe copies were sent over. I do
12 have copies with me.

13 MJ [COL ACOSTA]: Just -- defense, do you have the copy?

14 DDC [LCDR PIETTE]: Yes, Your Honor.

15 MJ [COL ACOSTA]: All right. This is cleared for publication?
16 All right.

17 You can present it.

18 ATC [Capt DANIELCZYK]: Your Honor, would you like a copy?

19 MJ [COL ACOSTA]: I have a copy.

20 ATC [Capt DANIELCZYK]: May I approach?

21 MJ [COL ACOSTA]: You may.

22 ATC [Capt DANIELCZYK]: I've handed the exhibit to the
23 witness.

1 Q. Sir, do you recognize that document?

2 A. I do recognize it.

3 Q. And can you explain what that is?

4 A. This is a SOAP note and it was written by my predecessors,
5 and it is a note that memorializes a follow-up visit for his right
6 shoulder bicipital tendonitis which was diagnosed in apparently
7 December of 2021 according to the note.

8 And it talks about the patient wanting to get a steroid
9 injection and it talks about the fact that he was reluctant to rest
10 his shoulder but he eventually started decreasing the weight anyway
11 and then he was doing curls with 70-pound -- 70 pounds and had been
12 doing physical therapy, and had been taking anti-inflammatory
13 medication, and that he took a rest from lifting during Ramadan, and
14 that he started with 10 pounds but then increased it to 20 and ----

15 MJ [COL ACOSTA]: Actually ----

16 A. ---- 30 pounds. And so ----

17 MJ [COL ACOSTA]: Excuse me.

18 WIT: Sir? Your Honor.

19 MJ [COL ACOSTA]: I don't need you to read it.

20 WIT: Okay.

21 MJ [COL ACOSTA]: You have a question about it?

22 ATC [Capt DANIELCZYK]: Yes, sir.

23 Q. Just -- and I think -- I think you hit it already. Does

1 that document detail the workout routine and some of the issues maybe
2 exacerbating a shoulder injury?

3 A. I would say that this note is very consistent with
4 his -- the accepted history of the shoulder injury and what we've
5 been dealing with with him regarding the shoulders.

6 Q. All right.

7 ATC [Capt DANIELCZYK]: I'd like to retrieve that document,
8 Your Honor.

9 MJ [COL ACOSTA]: You may. You may move freely.

10 ATC [Capt DANIELCZYK]: All right. I've retrieved the
11 document.

12 Showing the witness -- or, excuse me, handing to the witness
13 what's premarked as AE 534J. I believe defense also has a copy, was
14 sent with the previous.

15 MJ [COL ACOSTA]: You may.

16 Q. Sir, does that document also look familiar?

17 A. It does.

18 Q. Is that, generally speaking, in the same format as the
19 previous?

20 A. It is.

21 Q. And does that also discuss his shoulder injury and the
22 bicipital tendonitis?

23 A. Yes, I would say the entire -- the underlying premise of

1 the entire note is specific to lifting and overuse injury and
2 treatment of his weightlifting-induced shoulder pain.

3 Q. Thank you.

4 ATC [Capt DANIELCZYK]: I'll retrieve the document.

5 Now, I do have one additional document. It is labeled a
6 SECRET document. I don't intend to have the witness discuss any of
7 the information within the document.

8 MJ [COL ACOSTA]: Okay. So what are you going to do with the
9 document, then?

10 ATC [Capt DANIELCZYK]: I'd like him to authenticate it
11 and ----

12 MJ [COL ACOSTA]: You want to authenticate an exhibit that is
13 a government exhibit of medical records that you've submitted to both
14 parties?

15 ATC [Capt DANIELCZYK]: Yes, sir.

16 MJ [COL ACOSTA]: You may proceed.

17 ATC [Capt DANIELCZYK]: All right. Your Honor, I'm showing
18 the witness a document that is not yet premarked or at least it
19 wasn't ----

20 MJ [COL ACOSTA]: Oh, so this is an unmarked document. Have
21 you provided it to the defense?

22 ATC [Capt DANIELCZYK]: It has been provided, yes, Your Honor,
23 and it was sent over this morning, understanding there may not have

UNCLASSIFIED//FOR PUBLIC RELEASE

UNOFFICIAL/UNAUTHENTICATED TRANSCRIPT

1 been ----

2 MJ [COL ACOSTA]: Hold on a second.

3 Defense, do you have it?

4 DDC [LCDR PIETTE]: Your Honor, I don't believe I do. I can
5 check with my colleagues up here, but I only have the previous two
6 that were just presented.

7 MJ [COL ACOSTA]: So this is an unmarked document that is
8 classified that you want him to authenticate but before showing to
9 the defense?

10 ATC [Capt DANIELCZYK]: Your Honor, it was sent over last
11 night.

12 MJ [COL ACOSTA]: Sent over meaning?

13 ATC [Capt DANIELCZYK]: To defense.

14 MJ [COL ACOSTA]: To defense last night?

15 ATC [Capt DANIELCZYK]: Yes, sir.

16 MJ [COL ACOSTA]: When did you send it over? What time?

17 ATC [Capt DANIELCZYK]: It was after hours. Approximately
18 1900.

19 MJ [COL ACOSTA]: 1900, you sent it to the defense for the
20 testimony that I said we were going to be talking about today.

21 ATC [Capt DANIELCZYK]: Yes, sir.

22 MJ [COL ACOSTA]: Okay. You can provide it to -- the defense
23 doesn't have a copy of this at all? Defense, nobody on your team has

UNOFFICIAL/UNAUTHENTICATED TRANSCRIPT

22401

UNCLASSIFIED//FOR PUBLIC RELEASE

1 a copy of this?

2 DDC [LCDR PIETTE]: No, Your Honor, and I have to admit I did
3 not check SIPR this morning. So if it was sent on SIPR, I did not
4 see it.

5 MJ [COL ACOSTA]: Well, you're not the only ----

6 DDC [LCDR PIETTE]: I wasn't notified that ----

7 MJ [COL ACOSTA]: I know that you're not -- you have a team,
8 so I'm wondering if you can consult with your team and see if your
9 team got it.

10 ATC [Capt DANIELCZYK]: Your Honor, I'm getting word that the
11 staff has marked this exhibit.

12 MJ [COL ACOSTA]: What staff have marked this exhibit?

13 ATC [Capt DANIELCZYK]: The court reporters, sir.

14 MJ [COL ACOSTA]: I'm looking at my court reporter right now
15 and I'm seeing a shaking of the head, so -- so that's not correct.

16 **[The military judge conferred with courtroom personnel.]**

17 MJ [COL ACOSTA]: Counsel, hand a copy of it to the court
18 reporter, and she'll tell you whether or not she's received it and
19 marked it.

20 ATC [Capt DANIELCZYK]: Yes, Your Honor.

21 **[The military judge conferred with courtroom personnel.]**

22 MJ [COL ACOSTA]: All right. Well, Counsel, I'm not going to
23 allow you to proceed with that document.

1 ATC [Capt DANIELCZYK]: Understood.

2 Q. So, sir, speaking specifically about those two documents
3 you did get a chance to review, is that information generally
4 consistent with your interactions with Mr. Al Nashiri?

5 A. Yes, it is.

6 ATC [Capt DANIELCZYK]: Your Honor, may I have a moment?

7 MJ [COL ACOSTA]: You may.

8 **[Counsel conferred.]**

9 Q. So I just have a couple more questions on that 17 August
10 interaction. That was to discuss a radiology report; is that
11 correct?

12 A. To the best of my recollection, it was both to discuss a
13 radiology report and to just perform a general follow-up on his
14 chronic shoulder pain.

15 Q. Now, that radiology report -- or let me go back.

16 Was that radiology report specific to shoulder pain? Is
17 that the x-ray that defense counsel alluded to?

18 A. It probably is, yes. I don't -- when you said that
19 defense counsel alluded to, I don't know. But if you hadn't said
20 that I would say yes, it was about the x-rays we had taken.

21 Q. All right. I'll clarify. Defense counsel talked about
22 x-rays of a shoulder ----

23 A. Right.

1 Q. ---- correct?

2 A. Right.

3 Q. To your recollection, is that one of the topics of
4 discussion in that 17 August 2022 meeting?

5 A. Yes.

6 Q. Now, that radiology report states really kind of general
7 language of it may be secondary to secondary -- or, excuse me, may be
8 secondary to prior trauma. Is that common in the medical field?

9 A. It is, especially in his -- at his age, and radiologists
10 will often -- will often provide their own kind of differential
11 diagnosis in terms of it could be this or it could be that or -- but
12 it seems like it's most likely consistent with that.

13 And so that was probably, as I recall, the flavor of that
14 read as well, [REDACTED]

15 [REDACTED] but in the body of the impression the radiologist
16 dictated that there could be some prior trauma there looking at the,
17 you know, joint -- the glenohumeral joint, which is the shoulder
18 joint.

19 Q. You talked about Mr. Al Nashiri's age. Does that come
20 into play, into your kind of assessment and treatment of him?

21 A. Absolutely. Specific to joint injuries [REDACTED]
22 [REDACTED] type of changes and sensitivity to soft
23 tissue, tendonitis and so forth.

1 Q. So are there injuries that people may experience over time
2 that don't, in a sense, resurface until later due to age?

3 A. That's very accurately stated. I mean, I think you'd be
4 hard pressed to find someone in there who has been active who is in
5 their 50s that doesn't have at least some shoulder pain or some knee
6 pain. And as someone who has been doing military medicine for a long
7 time, it's -- among infantry folks specifically, it's one of the top
8 things that shows up on their VA claims, is chronic shoulder pain.

9 Q. Would that also be consistent with somebody who lifts
10 weights in their youth?

11 A. Yes.

12 Q. Now, you talked a little bit about your role as a primary
13 care physician essentially -- right? -- in the detention center.

14 A. Yes.

15 Q. Is it your goal to remain neutral to the detainees?

16 A. Absolutely. In fact, I think that's the ethos of any
17 physician, is to take care of the patient as a patient. We did that
18 during the war. We would take care of, you know, people who were
19 enemy combatants, and we would take care of them and give them the
20 best medical care we could.

21 As a critical care physician, I'm oftentimes in situations
22 where I have to take care of someone who may have just been in a
23 drunk-driving accident and, as a result, five people are dead, but I

1 take care of that patient just the same and provide him or her with
2 the best medical care I can in a vacuum, regardless of what they may
3 or may not have done. And that's just part of the business, and I
4 pride myself in that. I approach these patients the same way.

5 Q. That was going to be my question. Thank you.

6 A. Yeah.

7 ATC [Capt DANIELCZYK]: I don't have anything else, Your
8 Honor. Thank you.

9 MJ [COL ACOSTA]: Defense, redirect?

10 DDC [LCDR PIETTE]: Yes, Your Honor. Thank you.

11 **REDIRECT EXAMINATION**

12 **Questions by the Detailed Defense Counsel [LCDR PIETTE]:**

13 Q. All right. Now, you talked about with the prosecutor,
14 your -- and you mentioned it on direct as well.

15 Your mission, as you see it -- well, your mission as it is
16 and as is your duty as the senior medical officer is to provide
17 treatment to these detainees of emergent issues; is that right?

18 A. That's part of the job, yes. Most -- the preponderance of
19 what I do is taking care of just usual everyday issues.

20 Q. So issues -- they come to you presenting with pain and
21 injury or pain, and you want to treat it, or sickness? Is that
22 right?

23 A. Can you rephrase it as a more direct question?

1 Q. Yeah. So your main concern as a primary care physician
2 is, when somebody comes to you with a complaint, you want to
3 determine what the symptoms are showing, diagnose it, and treat the
4 immediate injury in front of you. Is that what I understand your
5 role -- your role to be there?

6 A. Sure. I guess we could summarize it that way.

7 Q. And so you, based on that -- based on your role and based
8 on your training, you determine what is relevant to the current
9 injury based on -- I believe you said recent history and the medical
10 interview that you do with a patient?

11 A. Yes.

12 Q. And to be clear, as was stated earlier, you have never
13 been trained specifically on treatment and care of torture victims;
14 is that correct?

15 A. That's correct.

16 Q. Okay. Now, you mentioned earlier -- you were talking
17 about along those lines, if somebody comes to you with -- presenting
18 what I understood to be symptoms of a heart attack, as your example,
19 would it help you to know when a patient comes to you saying maybe
20 their left arm hurts, and you want to ask -- or their chest hurts,
21 you ask them questions about is it radiating into the jaw, is it
22 radiating into the back, would you also ask them questions about any
23 prior medical health conditions relating to their heart?

1 A. I would ask them relevant questions to the
2 presenting -- the history of present illness, the presenting set of
3 symptoms, yes.

4 Q. So if they were presenting with pain in their chest that's
5 radiating to their left arm, their jaw aches, would it be relevant to
6 ask about if they have had or do have health -- or heart problems?

7 A. Yes.

8 Q. Would it be relevant to know if they had had heart
9 problems even as late as 20 years ago?

10 A. I think we're stretching the metaphor. I'm not sure how
11 to answer that.

12 Q. Well, you can answer it truthful ----

13 A. Either have a history -- well, they either have a history
14 of cardiovascular disease or they don't. But when you're talking
15 about cardiovascular disease, it's not the same thing as a
16 musculoskeletal injury.

17 Q. Well, let's talk about that, then.

18 A. Sure.

19 Q. You said you have dealt with infantry issues, and I
20 believe yesterday you said you were UMO for Special Operations; is
21 that correct?

22 A. I was in the past, yes.

23 Q. And so if an operator comes to you with -- who's been in

1 for, say, 20 years operating that entire time and comes to you with
2 pain in their shoulder that's affecting their ability to workout and
3 do the mission, and they tell you that 20 years ago, well, in winter
4 warfare training in Alaska they ripped their shoulder joint out of
5 socket, would that be medically relevant or at least good to know?

6 A. Yes, it would be good to know.

7 Q. Would you record that in their medical record?

8 A. Yes.

9 Q. And would it at least affect your diagnosis and treatment
10 of their current shoulder injury?

11 A. More than likely, yes.

12 Q. Okay. Has Mr. Al Nashiri ever told you that he has made
13 complaints to previous medical providers at GTMO about -- regarding
14 torture?

15 A. I don't remember.

16 Q. When you were reviewing the open-source material, going
17 back to that, did you ever -- the government had asked you
18 questions -- sorry. I'm going to back up a little bit and start
19 over.

20 The government had asked you questions about whether policy
21 prohibits you from asking questions about the detainee's treatment in
22 prior custody, and you said no. When you were looking at the
23 open-source documents in preparation for this hearing, did you come

1 across an article that talked about -- that was written where
2 previous medical providers were interviewed from GTMO and said that
3 there was a policy back then not to ask detainees about ----

4 A. No, I don't -- I don't remember reading that.

5 Q. Okay.

6 DDC [LCDR PIETTE]: Now, Your Honor, I have a couple documents
7 I would like to show the witness. I have provided them to the
8 government. However ----

9 MJ [COL ACOSTA]: Have they been provided to the government
10 and are they marked?

11 DDC [LCDR PIETTE]: They are not marked, so I would ask
12 that -- LN1 Wood is down there and can provide them to the court
13 reporters to be marked.

14 MJ [COL ACOSTA]: Government, do you have them?

15 ATC [Capt DANIELCZYK]: We do, Your Honor.

16 MJ [COL ACOSTA]: Are these unclassified?

17 DDC [LCDR PIETTE]: Yes, Your Honor. So if I could ----

18 MJ [COL ACOSTA]: Government, you have them before you?

19 What are -- what are these documents, Counsel?

20 DDC [LCDR PIETTE]: One is -- so I have the Bates stamp
21 numbers I can give to the government to make sure.

22 MJ [COL ACOSTA]: I don't want the Bates stamp number. I want
23 to know what the document is.

1 DDC [LCDR PIETTE]: Yes, Your Honor.

2 MJ [COL ACOSTA]: Is it a medical report?

3 DDC [LCDR PIETTE]: Yes.

4 MJ [COL ACOSTA]: Is it a memo? Is it an e-mail?

5 DDC [LCDR PIETTE]: The first one that I'm going to talk about
6 is a page in the medical record that's labeled Chronological Record
7 of Medical Care. It's from 25 January 2007, at least the note on it
8 that I'm going to be referring to.

9 The next one is a medical officer's note dated
10 22 March 2007, that's part of the medical record, but it is a medical
11 officer's note.

12 MJ [COL ACOSTA]: Government, you're standing.

13 ATC [Capt DANIELCZYK]: Your Honor, I'm going to object as
14 outside the scope of cross.

15 MJ [COL ACOSTA]: Defense?

16 DDC [LCDR PIETTE]: Your Honor, he -- this is absolutely
17 within the scope of cross because, in just a quick proffer, what
18 these show is complaints of injuries back in 2007 before
19 Mr. Al Nashiri had much time to develop a workout routine. I'm sure
20 he didn't -- wasn't lifting sandbags in CIA custody ----

21 MJ [COL ACOSTA]: And ----

22 DDC [LCDR PIETTE]: ---- or ----

23 MJ [COL ACOSTA]: Can you tell me how they're relevant to the

1 SMO's testimony or can you just submit them as exhibits? Do you need
2 him to tell you about them?

3 DDC [LCDR PIETTE]: Well, it ----

4 MJ [COL ACOSTA]: Or are they -- or are they -- or do they
5 speak for themselves and their contents? Because the government can
6 submit its -- claims they've submitted, their other document. I'll
7 take it under consideration if -- you know, if I get it.

8 DDC [LCDR PIETTE]: Well ----

9 MJ [COL ACOSTA]: Is this -- is this witness required to
10 testify on those documents or can you submit them on your own?

11 DDC [LCDR PIETTE]: Well, Your Honor, the test -- the
12 documents show that as far back as 2007, he was making claims about
13 shoulder injuries, and the testimony so far has made it -- has made
14 it seem like there were no complaints about shoulder injuries and
15 that they were only related to the workouts here. I'd like to ----

16 MJ [COL ACOSTA]: You want to ask him about those documents?

17 DDC [LCDR PIETTE]: Yes, and ask him if these are ----

18 MJ [COL ACOSTA]: Part of the records that he reviewed?

19 DDC [LCDR PIETTE]: Yes.

20 MJ [COL ACOSTA]: Your objection as to outside the scope is
21 overruled. I'll allow them to be marked, and you can present them
22 for -- to the witness.

23 DDC [LCDR PIETTE]: Thank you, Your Honor. I'll wait until

1 they're marked or at least I have the number.

2 **[The military judge conferred with courtroom personnel.]**

3 MJ [COL ACOSTA]: 534 -- the 22 March '07 is L, 534L. And the
4 chronological medical -- the chronological record is 534M.

5 DDC [LCDR PIETTE]: Thank you, Your Honor. All right.

6 First I'd like to show the witness what has been -- just
7 been marked as AE 534M.

8 MJ [COL ACOSTA]: You want me to hand it to him?

9 DDC [LCDR PIETTE]: If LN1 could hand it to him or somebody
10 could hand it to him. I obviously cannot.

11 Q. Sir, real quick, are you familiar with what
12 Mr. Al Nashiri's ISN number is?

13 A. Yes.

14 Q. If you look at the bottom of this, do you recognize his
15 ISN number on the bottom of this document?

16 A. Yes, it's consistent.

17 Q. Would this have been part of the medical records that you
18 reviewed during turnover and over your time here as the senior
19 medical officer?

20 A. Yes.

21 Q. If you look at the top, the 25 January 2007, if you could
22 read that.

23 A. Sure. This says 25 January '07 ----

1 MJ [COL ACOSTA]: You don't need to -- don't read it out loud.
2 That's not what we do.

3 WIT: I thought he asked me to -- okay.

4 MJ [COL ACOSTA]: Do not read it out loud. Read it to
5 yourself, and then he's going to ask you questions.

6 WIT: Okay. I've read it.

7 MJ [COL ACOSTA]: Okay.

8 Q. And you were able to review that this morning before
9 coming into court?

10 A. I was.

11 Q. Okay. And again, the date on that is 25 January 2007,
12 correct?

13 A. That's correct.

14 Q. And in this one, it says detainee is -- talks about him
15 complaining about shoulder pain?

16 A. That's correct.

17 Q. Okay. And obviously you were not here in Guantanamo Bay
18 back in 2007, correct?

19 A. That's correct.

20 Q. And you don't know what his workout routine was at the
21 time?

22 A. That's correct.

23 Q. You don't know if he was able to develop a workout routine

1 in CIA custody?

2 A. That's correct.

3 Q. Do you know when he got out of CIA custody and was brought
4 to Guantanamo Bay?

5 A. I'm assuming it was somewhere in 2006 because that's when
6 his intake was.

7 Q. Thank you.

8 DDC [LCDR PIETTE]: And again, now if we could show the
9 witness what has been marked as AE 534L.

10 A. If I could elaborate?

11 Q. Yes.

12 A. This is -- this is labeled -- the -- the writer of this
13 note is "HM Note." That's a hospitalman. That's a corpsman. This
14 corpsman wrote that the patient was complaining of pain in his
15 shoulders. This wasn't written by a physician. But even though the
16 corpsman has limited medical training, they did actually qualify it
17 and said specifically under his shoulder blades.

18 That's subscapular pain. That's not the shoulder joint.
19 That's not the glenohumeral joint. And so to characterize it as
20 shoulder pain is wholly inaccurate. He has a long history of
21 subscapular pain throughout the medical record.

22 Q. And is there anything in the medical record about that
23 subscapular pain that indicates its origins?

1 A. If there is, I don't remember seeing it.

2 Q. And again, you said Mr. Al Nashiri does not speak English
3 very well and has trouble expressing his -- himself in English and
4 needs a translator?

5 A. Correct. I don't know if there was a translator here or
6 not. We obviously weren't there.

7 Q. Understood. All right.

8 DDC [LCDR PIETTE]: Now if I could show the witness what has
9 been marked as AE 534L. Thank you.

10 MJ [COL ACOSTA]: The other document has been retrieved.

11 DDC [LCDR PIETTE]: Thank you.

12 Q. Have you had a chance to review this document this morning
13 as well?

14 A. Yes.

15 Q. And this one, it says that the detainee is complaining of
16 muscle soreness and stiffness in the left shoulder?

17 A. That's correct.

18 Q. It says that his shoulder was injured during an FCE [REDACTED]

19 [REDACTED]

20 A. Yes.

21 Q. Are you familiar with what FCE stands for?

22 A. Yes.

23 Q. And what does it stand for?

1 A. It stands for forced cell extraction.

2 Q. And so in this -- as his medical provider and you see this
3 in the medical record, what does that indicate to you?

4 A. It does indicate that he has pain in his shoulder that he
5 is attributing to the forced cell extraction.

6 Q. Does it help you in -- is it useful in diagnosing a later
7 shoulder injury in the same way that knowing that the operator had
8 tore his shoulder out of joint was in our previous example?

9 A. It would be helpful if this had been an injury that didn't
10 seem to have been absent from the record for many, many years
11 afterwards.

12 In your previous example, operators often hide injuries for
13 20 years until they get their VA physical and their retirement
14 physical, and then all of a sudden they have sleep apnea, shoulder
15 pain, and tinnitus, and everything else.

16 In this individual's instance, I don't -- I can't see any
17 secondary gain to hiding his injury for years and years and years on
18 end, and so it's -- it's striking that I didn't see it for so many
19 years out of this.

20 And I'll tell you, because -- and just being transparent, I
21 don't remember seeing this document in the medical record.

22 Q. Okay. And on that, you said that you can't see a
23 secondary benefit in the same way, like, an operator might hide his

1 injuries for 20 years so that he can continue doing his job until
2 retirement?

3 A. Correct.

4 Q. But you don't see any secondary gain for a detainee here
5 to hide injuries. But to be clear, you're not a board-certified
6 psychiatrist, correct?

7 A. That -- that's correct. But there are assumptions that
8 you make in clinical care, and that is that if someone has an injury
9 and they have symptoms and there doesn't seem to be a logical reason
10 for them to not disclose them, that they would tell you.

11 Q. Okay. And again ----

12 A. Otherwise I would have to be a psychiatrist and an
13 internist to do any part of my job, because everything I do involves
14 human interaction.

15 Q. But as a -- your assumptions then are based -- let's go
16 through it.

17 A. On being a physician.

18 Q. Right. So you're -- your profession, your training, and
19 your experience?

20 A. Correct.

21 Q. But again, you haven't had any training in treating,
22 providing care for former torture survivors, correct?

23 A. Correct.

1 Q. And you haven't had any training on -- excuse me.

2 You haven't had experience -- up until coming here, you
3 haven't had experience in dealing with and treating survivors of
4 torture; is that correct?

5 ATC [Capt DANIELCZYK]: Objection, Your Honor. It's been
6 asked and answered.

7 DDC [LCDR PIETTE]: Your Honor, I'm asking -- the difference
8 between this last one, I asked training. This one is experience.

9 MJ [COL ACOSTA]: Right. This one is slightly new. I'll
10 allow him to answer that.

11 Have you had any prior experience treating victims of
12 torture?

13 WIT: No.

14 MJ [COL ACOSTA]: All right. Defense.

15 Q. But you ----

16 A. I think it's difficult to overlook the fact that he did
17 bring it up at one point and then didn't bring it up for several
18 years and then all of a sudden brought it up in 2021 and was seen for
19 it, sometimes twice a month.

20 So it would stand to reason that he doesn't have any reason
21 to hide his shoulder injuries if in the past he hasn't in 2015 and
22 then in 2021 he isn't hiding his shoulder injury. So why would I
23 presume that between 2007 and 2015 he's hiding a shoulder injury and

1 from 2015 to 2021 he was hiding a shoulder injury for reasons that I
2 don't understand.

3 Q. All right.

4 A. That's the last -- that's part of being a physician. Some
5 things just make sense.

6 Q. Understood.

7 DDC [LCDR PIETTE]: Hold on one second, Your Honor.

8 **[Counsel conferred.]**

9 Q. Again, in preparing for coming here, based on that, did
10 you have any training in cross-cultural competency specifically for
11 treating Muslim men?

12 A. Not before this deployment.

13 Q. And did you -- for this deployment, did you receive any
14 training on that?

15 A. No. Our training leading up to this deployment did not
16 have any specific cultural sensitivity training or awareness training
17 that I remember, in contrast to the types of training that you and I
18 probably both received during -- before previous deployments to the
19 Middle East.

20 Q. Understood.

21 A. I also grew up in Muslim countries.

22 Q. Okay.

23 DDC [LCDR PIETTE]: I believe that's all I have. No further

1 questions, Your Honor.

2 MJ [COL ACOSTA]: All right. I don't have any questions for
3 this witness. Anything else? Does either party anticipate a need to
4 take anything up in a closed session? Defense?

5 DDC [LCDR PIETTE]: Your Honor, just one moment. If somebody
6 could pick up the headset down there.

7 MJ [COL ACOSTA]: While they're discussing, Government, your
8 submission will be considered -- of the classified document will
9 be -- will be considered by the commission.

10 You stated that he just was going to verify that it was a
11 medical record of the accused; is that correct?

12 ATC [Capt DANIELCZYK]: Yes, sir, with that understanding, no
13 need to close.

14 MJ [COL ACOSTA]: Okay. Again, because I'm -- I'm not trying
15 to prevent the presentation of the evidence. I just -- if they don't
16 have it in their hand to look at, I -- you know, I don't want to get
17 into it in a closed session if it's not necessary.

18 If it will only open a closed session for him to look at
19 a -- the medical record that is classified only because it is that of
20 the accused, I -- I'd prefer to keep it in the open session.

21 Defense?

22 DDC [LCDR PIETTE]: Your Honor, defense has no reason to go
23 into a closed session.

1 MJ [COL ACOSTA]: Government, likewise?

2 ATC [Capt DANIELCZYK]: Yes, Your Honor.

3 MJ [COL ACOSTA]: Permanent excusal okay, then, Defense?

4 DDC [LCDR PIETTE]: Yes, Your Honor.

5 MJ [COL ACOSTA]: Any objection, Government?

6 ATC [Capt DANIELCZYK]: No, Your Honor.

7 MJ [COL ACOSTA]: All right. Doctor, you're permanently
8 excused from his session. Do not discuss your testimony or your
9 knowledge of this case with anyone other than counsel for either
10 side.

11 You can step down and return to your duties.

12 WIT: Very good. Thank you, Your Honor.

13 **[The witness was warned, was permanently excused, and withdrew from**
14 **the courtroom.]**

15 MJ [COL ACOSTA]: All right. Defense, is there anything else
16 on 533 -- Government, you had previously -- hold on. I'm sorry,
17 Defense. I went to you.

18 Government, you previously stated that this would obviate
19 the need for the -- for the linguist, that this could obviate
20 the need for the linguist and that there is some objection to
21 producing the linguist.

22 Do you want to further elaborate on that now that you've
23 heard the extensive testimony of this doctor?

1 ATC [MAJ GARRETT]: Yes, Your Honor. The government stands by
2 the notion that you can rely solely on the SMO, but we will be
3 submitting an ex parte filing imminently.

4 MJ [COL ACOSTA]: You will be imminently filing an ex parte
5 filing about what? About the -- why the linguist can't testify?

6 ATC [MAJ GARRETT]: Yes, Your Honor.

7 MJ [COL ACOSTA]: Defense? I'm not asking you to respond to
8 the -- to a filing that you have not seen nor will see, apparently,
9 because if it's going to be ex parte. But your need for the
10 linguist, does it still exist, Defense?

11 DDC [LCDR PIETTE]: Yes, Your Honor. I think it was shown in
12 the testimony that only the linguist can answer the question, the
13 specific question I asked, elaborate further.

14 MJ [COL ACOSTA]: Can we talk about 5 -- just what the motion
15 is, right? The motion is -- we're -- we seem to be going down
16 a -- very deep down a very narrow rabbit hole on this
17 shoulder -- this particular shoulder injury or shoulder complaint.

18 That's not what the -- the defense motion isn't about this
19 shoulder injury. The defense motion is there are things that are not
20 appearing so much that -- that there are so many things left out of
21 the defense medical records that they cannot prepare for their case,
22 right, Defense?

23 DDC [LCDR PIETTE]: Correct, Your Honor.

1 MJ [COL ACOSTA]: Okay. So is that -- that is your
2 example -- right? -- that you've provided in this case or an example
3 of something. Do we need to chase this any further to get to this
4 one example of a shoulder injury on this topic for me to resolve
5 this, Defense?

6 DDC [LCDR PIETTE]: I think that it would be helpful to
7 explore it further because this example -- this is an example that
8 demonstrates kind of the systemic problem, and also, I would like to
9 be able to ask the interpreters, just generally speaking, so
10 specifically in that 2022 interaction, are they providing just a gist
11 or is it a verbatim? Did they not include everything? And does that
12 happen in other ----

13 MJ [COL ACOSTA]: Well, they don't write their reports, right?

14 DDC [LCDR PIETTE]: ---- clinical settings.

15 MJ [COL ACOSTA]: You're saying when they include everything
16 your talking about in their ----

17 DDC [LCDR PIETTE]: Yes.

18 MJ [COL ACOSTA]: ---- in their real-time translation is what
19 you're talking about?

20 DDC [LCDR PIETTE]: Yes, Your Honor.

21 MJ [COL ACOSTA]: Okay.

22 DDC [LCDR PIETTE]: And it would be limited to that. We're
23 not digging around or fishing for anything else.

1 MJ [COL ACOSTA]: I'll wait to see what the government files
2 in their ex parte to determine whether or not I need to hear any
3 other evidence on this motion.

4 Again, the government's overall opposition was this is not
5 even ripe now because this goes towards sentencing, towards the
6 other, right? So -- and the defense's response is, when do you want
7 us to accumulate the evidence? Do you want it to wait until after
8 trial for us to accumulate E&M evidence?

9 There's -- there is some foundational correctness in both
10 positions that the defense shouldn't have to wait until the very end
11 and that it may not be an issue ripe as of yet. There's an argument
12 for that.

13 But I'll take the -- I'll take the government's ex parte
14 filing on this before I decide if I'm going to take any further
15 evidence, before I need -- not whether or not I want to take it, but
16 whether or not I believe, based upon the evidence and the motions
17 filed, that I need to take any further evidence on this.

18 So, Government, make your imminent, about-to-be-filing
19 ex parte filing, and I will review it.

20 ATC [MAJ GARRETT]: Yes, Your Honor.

21 MJ [COL ACOSTA]: All right. The next issue to take up is
22 argument on 533. Before we take that up, we'll take a 15-minute
23 recess.

1 The commission is in recess for 15 minutes.

2 **[The R.M.C. 803 session recessed at 1038, 28 February 2023.]**

3 **[The R.M.C. 803 session was called to order at 1056,**
4 **28 February 2023.]**

5 MJ [COL ACOSTA]: The commission is called to order.

6 Government, all parties present as before?

7 TC [MR. O'SULLIVAN]: In the ELC, yes, Your Honor. We're
8 missing a couple of folks at the RHR. They'll return shortly,
9 though. Lieutenant Schwartz and Supervisory Special Agent Sonnen
10 will be back in momentarily.

11 MJ [COL ACOSTA]: All right.

12 Defense?

13 LDC [MR. NATALE]: Your Honor, Mr. Nashiri is not present and
14 I spoke with him, and he voluntarily understands that he could be
15 present, but he was having intestinal problems and that he wanted to
16 go back to the cell.

17 Earlier today we confirmed that the earphones are working so
18 that he can see and listen to what's going on.

19 MJ [COL ACOSTA]: Okay.

20 LDC [MR. NATALE]: It was totally voluntary in order for him
21 to be able to deal with ----

22 MJ [COL ACOSTA]: He voluntarily absented himself from this
23 portion of the proceeding?

1 LDC [MR. NATALE]: Yes, sir.

2 MJ [COL ACOSTA]: All right, thank you. And of course if this
3 goes on -- depending on how long we go today, if he wishes to come
4 back, if he's in the local area, he may return at any time.

5 LDC [MR. NATALE]: He is, and he has been informed of that.

6 MJ [COL ACOSTA]: All right. Thank you, Counsel. All right.
7 We're going to take up 533, which is the defense motion to
8 abate pending transcription redactions reflecting actual classified
9 material.

10 Government, it's my understanding -- and I'm going to you
11 first. I know this is a defense motion, but this is essentially the
12 last time -- I believe the last I've heard of this from your
13 response, was that this is being corrected; that there was
14 over-redactions and that they're being corrected as we speak and
15 being posted correctly; is that correct?

16 Government, who is taking this?

17 ATC [MAJ ROSS]: Yes, sir. It's Major Ross here in the ELC.

18 MJ [COL ACOSTA]: Yes, you can come up. Good morning, Major
19 Ross. Is there -- is there an update on this process?

20 ATC [MAJ ROSS]: I do have an update. Would you like it now
21 or would you like it during argument?

22 MJ [COL ACOSTA]: Defense, do you have any evidence to put on
23 of this, for this issue, or ----

UNCLASSIFIED//FOR PUBLIC RELEASE

UNOFFICIAL/UNAUTHENTICATED TRANSCRIPT

1 LDC [MR. NATALE]: Ms. Carmon is handling this.

2 MJ [COL ACOSTA]: All right. Ms. Carmon, do you have evidence
3 to put on on this or just argument?

4 DC [MS. CARMON]: No, sir, just argument. And I -- this may
5 obviate my update of the mc.mil website if Major Ross has one for
6 you, but I also have one as well.

7 MJ [COL ACOSTA]: Okay. Well, Defense, I'll let you
8 go -- stay where you are. You can stay up there, Ms. Carmon. Go
9 ahead. We're at two separate podiums, but everybody stay at their
10 podium.

11 Let's have this. Defense, you can go first with what the
12 update to the website is -- and not only to the website, have you
13 received any -- not only to what's been posted and I understand that
14 there -- it's because it's the commission's understanding there's a
15 delay at times between the provision of transcripts to the parties
16 and a post -- and the posting of them on the website.

17 So if you have anything on that, if you could address that
18 in your update. Go ahead.

19 DC [MS. CARMON]: Yes, sir. Thank you. I would direct the
20 commission to paragraph 5.e. in AE 533. I'll start there with the
21 update. That's the 4 August 2022 transcript where I identify
22 multiple and voluminous redactions. As of last night, that
23 transcript is posted with zero redactions. So that has been fixed.

UNOFFICIAL/UNAUTHENTICATED TRANSCRIPT

22428

UNCLASSIFIED//FOR PUBLIC RELEASE

1 On 9 August 2022, there were no redactions anyway.

2 On 24 October 2022, the transcript was originally released
3 without any redactions. We saw it, we saved it, went back a few days
4 later, it was no longer available on the website. It has now been
5 re-released on mc.mil, and as of last night in the
6 221-page transcript, 147 pages were completely blacked out.

7 The 25 October 2022 transcript that I noted was mostly
8 redacted, 101 pages were completely redacted. It's still the same on
9 the website. It has not been ----

10 MJ [COL ACOSTA]: So you have one ----

11 DC [MS. CARMON]: ---- modified in any way.

12 MJ [COL ACOSTA]: So there's one posting from October which
13 appears to have been correct -- or fixed or released correctly, and
14 then the rest in October are not -- not fixed? Is that what I'm
15 hearing?

16 DC [MS. CARMON]: That is -- the only one that has been
17 unredacted, or less redacted than it was released as, is the 4 August
18 transcript.

19 MJ [COL ACOSTA]: 4 August. Not October. Pardon me. Okay.

20 DC [MS. CARMON]: And you're right ----

21 MJ [COL ACOSTA]: I'll let you continue.

22 DC [MS. CARMON]: ---- everything else has either -- and I
23 would just point out on the 27 October transcript, that was one of

1 those that originally released, no redactions at all, then pulled
2 back from the website. That one has been re-released to the website
3 and is heavily redacted, including the title of the defense's motion
4 in AE 480. I just noted that as one of the redactions that seemed
5 notable.

6 And then the 28 October 2022 transcript is exactly the same.

7 MJ [COL ACOSTA]: So it has not been -- it's still heavily
8 redacted is what that means, correct?

9 DC [MS. CARMON]: Yes, sir.

10 MJ [COL ACOSTA]: Okay. Is that all you have for me, Defense,
11 on that?

12 DC [MS. CARMON]: Yes, sir.

13 MJ [COL ACOSTA]: Okay. Did you have anything on whether or
14 not you have been provided any unredacted updates that have not been
15 posted to the Internet or to the website?

16 DC [MS. CARMON]: We have not.

17 MJ [COL ACOSTA]: Okay.

18 DC [MS. CARMON]: We have not.

19 MJ [COL ACOSTA]: Thank you, Counsel. All right.

20 Major Ross?

21 ATC [MAJ ROSS]: Thank you, Your Honor.

22 May it please the court, the 4 August 2022 transcript,
23 complete second review, posted on mc.mil, as Ms. Carmon noted, I was

1 tracking there was one redaction in Agent McFadden's testimony on
2 page 18140 through lines 3 on 18141.

3 MJ [COL ACOSTA]: From the 4 August?

4 ATC [MAJ ROSS]: Yes, sir. And my understanding is the OCA
5 has declared that as classified, and there is an ex parte declaration
6 to support that as well. But if you scroll down a couple lines past
7 the redaction, you'll see Your Honor sustaining a 505 objection. So
8 there's one redaction in Agent McFadden's testimony on 4 August.

9 27 October, half of that day's proceedings have been
10 reviewed a second time and posted. The other half has not. And I
11 believe Ms. Carmon is referring to the portion that has not been
12 completely re-reviewed and submitted. So what has been done is
13 parts two and three of the p.m. session, and there are no redactions
14 there. So that's the second review complete.

15 The remaining items -- and this is where it gets a little
16 bit confusing, specifically ----

17 MJ [COL ACOSTA]: Hold on. We're still on 27 October,
18 correct?

19 ATC [MAJ ROSS]: Yes, sir.

20 MJ [COL ACOSTA]: 27 October you said half was reviewed and
21 reposted, parts two and three are the parts that were reviewed and
22 reposted and there are no redactions -- parts two and three of
23 the p.m. -- I'm assuming you mean the afternoon session ----

UNCLASSIFIED//FOR PUBLIC RELEASE

UNOFFICIAL/UNAUTHENTICATED TRANSCRIPT

1 ATC [MAJ ROSS]: Yes.

2 MJ [COL ACOSTA]: ---- were reviewed and reposted with no
3 redactions.

4 ATC [MAJ ROSS]: Yes, sir. So the morning session and part
5 one of the afternoon session is still at SC/DRT awaiting a final
6 review by them.

7 MJ [COL ACOSTA]: So that's up to 27 October. Okay.

8 ATC [MAJ ROSS]: That's 27 October.

9 The other transcripts have been reviewed by the relevant
10 OCAs. They are with SC/DRT for final processing.

11 The versions that are now posted -- Ms. Carmon mentioned
12 originally some were taken down and then there's another version that
13 has been posted since. That version is not the final review version.
14 So there's somewhat of a problem of version control, keeping track of
15 the items that are undergoing that second review.

16 So anything beyond 4 August and the 27 October parts two and
17 three of the afternoon session are with SC/DRT. And we've been told
18 they are aiming to have everything done and submitted to the
19 webmaster by the end of this week, barring any further ----

20 MJ [COL ACOSTA]: So the entire October session will be posted
21 by the end of this week?

22 ATC [MAJ ROSS]: That -- there -- they've told me that they
23 will -- they aim to have it completed and submitted to the webmaster.

UNOFFICIAL/UNAUTHENTICATED TRANSCRIPT

22432

UNCLASSIFIED//FOR PUBLIC RELEASE

UNCLASSIFIED//FOR PUBLIC RELEASE

UNOFFICIAL/UNAUTHENTICATED TRANSCRIPT

1 MJ [COL ACOSTA]: Okay. So through the SC/DRT review and on
2 to the individuals who will post that. And it's my understanding
3 that what we're finding is massive corrections to the massive
4 over-redactions that have occurred, correct?

5 ATC [MAJ ROSS]: There are changes.

6 MJ [COL ACOSTA]: Okay.

7 ATC [MAJ ROSS]: I would leave it to Your Honor to
8 characterize those changes.

9 MJ [COL ACOSTA]: Okay. So there is much more that's being
10 released that was previously redacted, correct?

11 ATC [MAJ ROSS]: Yes, sir, that's correct, and that's as the
12 reg anticipates. The reg notes, 19-4, further revisions may be
13 necessary. And, you know, that's what we're trying to do, is work
14 within that regulation to ensure that these concerns raised by the
15 defense are addressed.

16 MJ [COL ACOSTA]: And the -- next would be the December
17 session. Is it currently undergoing review as well?

18 ATC [MAJ ROSS]: I don't think a second review was requested
19 on the December session. I think those are fairly lightly redacted
20 in the first place.

21 My focus has been on correcting the -- the ----

22 MJ [COL ACOSTA]: October? August and October?

23 ATC [MAJ ROSS]: The ones that have been identified in -- in

UNOFFICIAL/UNAUTHENTICATED TRANSCRIPT

22433

UNCLASSIFIED//FOR PUBLIC RELEASE

1 the motion, sir.

2 MJ [COL ACOSTA]: All right. The -- well, it seems, though,
3 that what it identified was perhaps a more systemic issue, which is
4 really what their motion is about. It's like we're not getting
5 enough, and that the ones that she specifically addressed are
6 demonstrative of a systemic issue.

7 These ones that have gone up and come down, is it the
8 government's position that they should have never gone up in the
9 first place?

10 ATC [MAJ ROSS]: I wouldn't say they should have never gone up
11 in the first place. Again, I think you have to put yourself in the
12 shoes of the individual that is making those redactions. And on the
13 initial review, they lean towards caution. They ----

14 MJ [COL ACOSTA]: No, no, no. Not the ones that -- not the
15 ones that -- with the heavy redactions that were taken down. I'm
16 talking about the -- very much the original ones that were posted
17 with no redactions that Ms. Carmon referred to. Like, there was a
18 set that went up with no redactions, came down, and then were
19 reposted with heavy redactions.

20 I'm talking about the very first posting with no redaction.
21 Is that -- was that in error?

22 ATC [MAJ ROSS]: As I understand it, there was one release of
23 classified information on a transcript. I don't know if it's the

1 transcript to which you're referring to, Your Honor. I would hate
2 to ----

3 MJ [COL ACOSTA]: No, I understand.

4 ATC [MAJ ROSS]: I would hate to shine a spotlight on the
5 precise date as well, Judge.

6 MJ [COL ACOSTA]: Well, it has -- it was taken back down, so
7 that's the -- okay.

8 Ms. Carmon, do you have anything -- that's the updates that
9 we have, that you're going to get, according to the government
10 that -- pardon me, not that you're going to get, but that the SC/DRT
11 will have the corrected versions -- the second-reviewed versions of
12 the October pleadings to the web -- to the individuals responsible
13 for posting on the web by the end of this week.

14 Any response?

15 DC [MS. CARMON]: Yes, sir. Just if I may address the
16 December transcripts as well.

17 MJ [COL ACOSTA]: Uh-huh.

18 DC [MS. CARMON]: The -- the reply from the defense was on
19 26 January. The December transcripts were just beginning to be
20 released. And I would direct the government to footnote 1 where I
21 noted that the transcripts that were available from Agent Khoury's
22 December testimony are heavily redacted.

23 I will go back and -- I have not reviewed to make sure all

1 transcripts from December have been released, but I certainly will.
2 But I would ask of a second review of those as well. And again, it's
3 the same categories of information that are being redacted throughout
4 from August to December. And so if those -- if that's the process,
5 if those can undergo a second review as well.

6 MJ [COL ACOSTA]: Okay. What I'll want is an update -- and I
7 will also check to see, but what I want is an update as to when those
8 second reviews are completed -- of the October session are complete
9 and if there's more complete transcripts posted of those.

10 Government, any issue with submitting the December session
11 for secondary review?

12 ATC [MAJ ROSS]: And, Your Honor, I apologize. I must have
13 missed the footnote. We'll take a look at December as well and
14 submit that.

15 MJ [COL ACOSTA]: Okay. So -- thank you. So that will handle
16 January. All right.

17 Defense, any argument that you wish to make?

18 DC [MS. CARMON]: Sir, the reason we filed the motion is that
19 we wanted action. Obviously that's occurring, which is what we
20 wanted. We want our client to be able to read when he's not present,
21 we want our expert to be able to review, and we want the public to be
22 apprised of what's happening in the commissions.

23 And so I don't see that there's necessarily any argument

1 right now. What I'd like to do is defer any argument until these
2 transcripts are re-released, and hopefully the process will work as
3 intended.

4 MJ [COL ACOSTA]: All right.

5 Government?

6 ATC [MAJ ROSS]: Only if Your Honor cares to hear any argument
7 from us.

8 MJ [COL ACOSTA]: I don't. I'm assuming that you
9 concur -- that you agree that it's appropriate for the commission to
10 wait -- to hold this particular motion off to delay -- to defer
11 ruling or hearing anything further on it until we get final review of
12 those transcripts that are required to be reviewed.

13 ATC [MAJ ROSS]: Absolutely.

14 MJ [COL ACOSTA]: All right. Thank you, Major Ross.

15 Ms. Carmon?

16 DC [MS. CARMON]: Thank you.

17 MJ [COL ACOSTA]: All right. As the commission stated, it
18 will defer ruling on 533, as it appears that there has been
19 improvements.

20 I will just say this: My only editorial note would be the
21 commission expects consistent guidance across -- consistent
22 application of the classification guidelines across all of the -- the
23 transcripts as we go forward, again, with a view to making them as

1 unclassified as possible for the public -- not just for the accused
2 but for the public as well. It appears that that is happening.

3 But I will defer ruling on 533 until we see the remainder of
4 the second-reviewed transcripts, including those from January. And
5 if it appears that we have corrected the issue sometime after that,
6 then going forward, I would expect to see more complete transcripts
7 of this session and all sessions going forward so that there doesn't
8 need to be a second review going forward.

9 I understand that that is always a possibility and -- for
10 review, and I would encourage the parties to -- Government,
11 independently, if you look at a transcript and you see that there's
12 something that has been taken out that you know to not be -- to be
13 classified, to address it as soon as possible before you're asked to
14 make sure that the public is aware -- is informed as possible. Thank
15 you, Government. All right.

16 Tomorrow we have Mr. Kelley and Special Agent Bongardt,
17 right, Government?

18 ATC [MAJ ROMEO]: Yes, Your Honor.

19 MJ [COL ACOSTA]: And they're here -- they're -- they're local
20 or arriving today, correct?

21 ATC [MAJ ROMEO]: Yes, Your Honor.

22 MJ [COL ACOSTA]: Okay. And they're both open sessions?

23 ATC [MAJ ROMEO]: Your Honor, I'm handling AE 461 for both

1 witnesses that pertain to that. Those sessions are open. I'll defer
2 to the defense regarding calling ----

3 MJ [COL ACOSTA]: On 482.

4 ATC [MAJ ROMEO]: ---- Bongardt for 482.

5 MJ [COL ACOSTA]: On 482, Defense, you anticipate that not
6 being closed, correct? You anticipate that being an open session?

7 DC [MS. CARMON]: Yes, sir. It should be all open.

8 MJ [COL ACOSTA]: Okay. All right. That's all I've got on my
9 agenda for today.

10 I know that that -- as always, it pains me to be down here
11 and not be productively conducting a session or receiving evidence on
12 the -- on the number of motions for which I have evidence outstanding
13 to receive, but this will give the parties an opportunity to review
14 those things that have been submitted to them that need review.

15 Is there anything else to take up before I recess the
16 commission until 0900 tomorrow?

17 Government?

18 TC [MR. O'SULLIVAN]: No, Your Honor.

19 MJ [COL ACOSTA]: Defense?

20 LDC [MR. NATALE]: No, Your Honor, but I can assure you that
21 my team are being aggressively required to work even though we're not
22 sitting here.

23 MJ [COL ACOSTA]: I understand.

1 DDC [LCDR PIETTE]: Your Honor?

2 MJ [COL ACOSTA]: Yes.

3 DDC [LCDR PIETTE]: This is Lieutenant Commander Piette. I do
4 have one quick thing, if I could bring up quickly.

5 MJ [COL ACOSTA]: Yes. Is it the aggressiveness with which
6 Mr. Natale's making you work?

7 DDC [LCDR PIETTE]: No, Your Honor.

8 MJ [COL ACOSTA]: Can't do anything about that.

9 DDC [LCDR PIETTE]: Right. This is in regards to the motion
10 to compel witnesses in 534. I know Your Honor is waiting to issue
11 your ruling on the -- on the witnesses you've granted and denied
12 until you see the government's ex parte filing.

13 I would ask Your Honor to take into account the SMO's
14 testimony and maybe reconsider the decision you've indicated on the
15 psych, or the medical provider testimony -- I mean mental health
16 provider testimony, based on the SMO today testifying that he doesn't
17 know her qualifications or only kind of wavetops knows them and she's
18 the only one who can testify to her qualifications regarding torture,
19 treatment, and the documentation of torture treatment.

20 MJ [COL ACOSTA]: Okay. I will take everything into
21 consideration that I've heard before making a final ruling on the
22 motion to compel those witnesses.

23 DDC [LCDR PIETTE]: Thank you, Your Honor.

1 MJ [COL ACOSTA]: And what counsel is referring to is I gave a
2 preliminary communication in the form of an e-mail 802 on what I was
3 going to -- on what the commission was going to rule upon, and then
4 the -- the commission indicated that it was going to grant the motion
5 to compel the senior medical officer, which we've heard from, and the
6 translator. And that that -- and then later that -- the next day,
7 that -- the -- the government indicated it had a higher than
8 previously recognized objection to the production of the -- of the
9 linguist.

10 And that's where we are now. That is what counsel are
11 referring to and have in the past. I wanted to make sure that was on
12 the record. It's essentially an e-mail 802, but I failed to -- I
13 don't know if I indicated enough what counsel were referring to, and
14 that was a communication from me to the parties about what I was
15 about to rule on when I came in here. And then the government asked
16 me to not issue any ruling until they had it. I agreed to not issue
17 any such ruling. Nonetheless, the SMO was produced, and we heard
18 from him today.

19 So -- but I will take into consideration all of those -- all
20 of the evidence, the motion, the attachments thereto, the argument of
21 counsel, the testimony of the SMO, the -- the attachments to the
22 pleading, the -- the government's classified document that they
23 are -- or have offered, the defense's several documents that they

1 offered this morning, and the -- the government's ex parte classified
2 filing regarding this issue in -- I will take all of that into
3 consideration before I issue a ruling on the motion to compel.

4 **[The military judge conferred with courtroom personnel.]**

5 MJ [COL ACOSTA]: Oh, and I did fit -- the -- the staff has
6 reminded me that 534N is the -- for the record, is the government's
7 classified -- is the AE number for the government classified filing
8 that they made in court this morning. Okay. Thank you, Counsel.
9 All right.

10 If there's nothing else, the commission is in recess until
11 0900.

12 **[The R.M.C. 803 session recessed at 1119, 28 February 2023.]**

13 **[END OF PAGE]**
